Professional Summary

Computer Science Engineering student with strong skills in Full Stack Web Development, Java, JavaScript, Python, React.js, Firebase, and SQL. Experienced in building scalable web applications, AI-powered systems, and responsive frontend interfaces. Passionate about software engineering, backend development, and modern web technologies.

Technical Skills

Languages: Java, JavaScript, Python, SQL, HTML5, CSS3, C/C++

Frontend: React.js, HTML, CSS, JavaScript

Backend: Node.js, Flask, FastAPI, REST APIs

Databases: MySQL, PostgreSQL, Firebase

Tools & Platforms: Git, GitHub, Docker, Postman, VS Code, Firebase

Core Concepts: Full Stack Development, Authentication, CRUD Operations, API Integration, Database Management

Experience

Telecom Regulatory Authority of India (TRAI)

Jun 2024 – Aug 2024

Data Analyst Intern, Delhi, India

- Processed and analyzed telecom datasets using MS Excel for auditing and reporting purposes.
- Generated analytical reports and pivot tables to improve reporting accuracy and data visualization.
- Assisted in telecom audit summaries and zone-wise reporting analysis.

Revel Labs

Feb 2026 – Jun 2026

Web Development Intern, Remote

- Worked on frontend and backend web development tasks using JavaScript and modern web technologies.
- Developed responsive UI components and integrated APIs for dynamic web applications.
- Collaborated with the development team to improve application performance and user experience.

Projects

AI Resume Analyzer — React.js, Node.js, Python

2026

- Developed an AI-powered resume analysis platform with ATS score evaluation and skill extraction.
- Integrated backend APIs and authentication system for secure resume uploads and analysis.
- Built responsive frontend UI with resume parsing functionality.

Netflix Clone with AI Chatbot — HTML, CSS, JavaScript, Firebase

2026

- Built a Netflix-inspired responsive streaming interface with modern frontend design.
- Integrated AI chatbot and voice command features for enhanced user interaction.
- Implemented Firebase authentication and dynamic movie browsing functionality.

Elaan 2025 Cultural & Sports Fest Website — HTML, CSS, JavaScript, Firebase

2025

- Developed a university cultural and sports fest management website for event registration and announcements.
- Implemented responsive UI, event scheduling system, and participant management features.
- Integrated Firebase backend for authentication and real-time event updates.

Education

Apeejay Stya University

Bachelor of Technology in Computer Science Engineering

CGPA: 3.2 / 4.3

Expected Aug 2026

Certifications

- Full Stack Development
- Python Programming
- SQL on Oracle Cloud
- PL/SQL on Oracle Cloud
- Space Science & Technology Training

Achievements

- Built multiple real-world full stack web applications using Firebase and modern JavaScript technologies.
- Developed AI-integrated applications including chatbot and ATS-based resume analysis systems.
- Strong understanding of frontend-backend integration and scalable database-driven systems.
